Felixians awarded black belt from Korean Kukkiwon

Nine girls from St. Felix High School, namely Veronica Robert, Vaishnavi Dhumal, Sharon Mathew, Priyadarshini Gopal, Anjali Nair, Shruti Devadiga, Aditi Bhosale, Sarah Sable and Aaliyah Memon were awarded the Black Belt by the Korean Kukkiwon Organisation in the under-15 category. These young achievers have displayed tough discipline and fortitude. The black belts were handed over by Sr. Tara, principal of St.Felix High School and the Taekwondo instructor Bhandari. Photo shows the proud achievers from St. Felix with Principal Sr. Tara (centre) and others.

Yours truly,
Students of First Year.

Science department,
{Cusrow Wadia Institute
Of Technology}

1: ONE MUST AVOID RESTING UNDER A PEEPAL TREE AT NIGHT.

MYTHS:-
Standing under the peepal tree might lead to ghost attack.

SCIENTIFIC REASON:-
Peepal trees give out a lot of carbon dioxide at night, and hence standing underneath them could be potentially dangerous to one's health.

2: BLACK SPOTS ARE PUT ON THE FOREHEAD OR BEHIND THE EAR OF INFANTS.

MYTHS:-
Black spots are put on the forehead or behind the ear of infants to ward off evil.

SCIENTIFIC REASON :-
The logic behind this process is that doing so makes the child in question look ugly, and therefore unattractive to the 'evil eye.'

3: ONE MUST AVOID CUTTING NAILS AT NIGHT.

MYTHS:-
Cutting nails at night brings bad luck.

SCIENTIFIC REASON:-
In sweeping away the cut nails in the darkness, one could inadvertently sweep away small valuables because of poor visibility and there would also be possibility of one cutting the nails more than required.

4: ONE MUST BE CAREFUL AND AVOID SPILLING SALT.

MYTHS:-
Spilling salt indicates bad luck and leads to fights in the house.

SCIENTIFIC REASON:-
During the middle ages, Salt was a very expensive commodity used mainly for medicinal purposes. For this reason, spillage was to be avoided at all costs.

5. PEOPLE STOP THEIR DAILY ACTIVITIES DURING THE ECLIPSE.

MYTHS:-
Pregnant women are often not allowed to sew or cut vegetables during an eclipse. Some families avoid cooking and eating altogether during an eclipse and avoid going out as this brings bad luck.

SCIENTIFIC REASON:-
One should actually avoid going out during an eclipse in order to keep away from the harmful UV rays of the sun.

POINTS TO REMEMBER

1. Never believe in SUPERSTITIONS.
2. Always keep your mind POSITIVE.
3. Inculcate SCIENTIFIC REASONING.

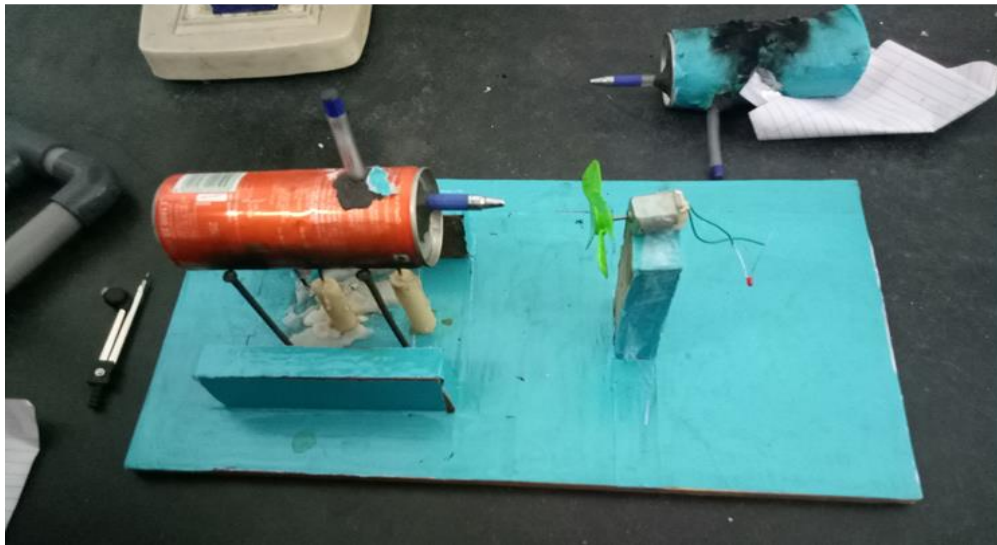

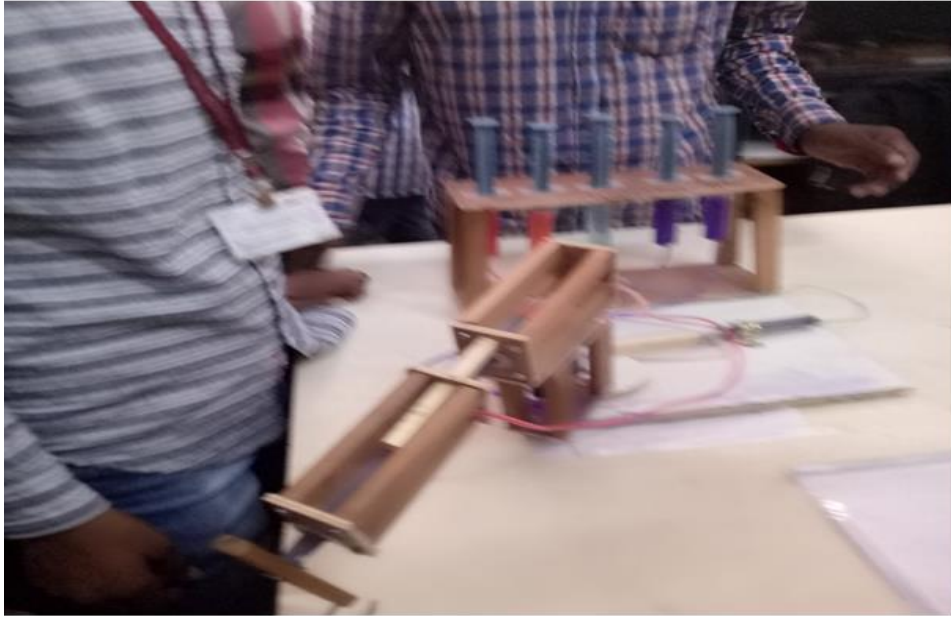

Thank You!
